

GGGGGAATCCCC

The image displays a DNA sequence logo for the sequence GGGGAATCCCC. The letters are color-coded: G is orange, A is green, T is red, and C is blue. Below the letters are horizontal bars representing the conservation of each base at each position. The first five positions are dominated by G (orange), the sixth by A (green), the seventh by T (red), and the last four by C (blue). The bars are color-coded to match the base above them, with some overlapping colors indicating multiple bases at a position.
